(Arts, Commerce and Science)

Affiliated to Shivaji University, Kolhapur

Tal. Shirol, Dist. Kolhapur Pin – 416 106

INSTITUTIONAL DISTINCTIVENESS

Sahakarbhushan S. K. Patil College, run by the National Institute of Education, is situated in the city of Kurundwad, blessed by the footsteps of Sri Dattaguru and situated on the holy confluence of the Krishna Panchgana River. This knowledge yajna has been going on continuously since 1985 with the auspices of Vidya Gurunam Guru. Our college is a permanently affiliated to Shivaji University, Kolhapur and is connected to 40 villages in the southern part of Shirol taluka of Kolhapur district. Our college has facilitated higher education for the students of these 40 villages. This college has been working for the education of rural students especially female students. We successfully worked to mainstream the deprived sections of the society in education. Every year more than one thousand students from these 40 villages take admission in our college. The college always contributes to the social, economic and moral development of all these students.

Although the college is in a rural area, our college has continuously spread its reputation at the national and international level through sports. Many famous athletes who graduated from your colleges have shone on the international stage and are working in many government services today. Our college students have performed spectacularly in sports like Kho-Kho, Volleyball and Kabaddi.

Along with this, the N.S.S. and N.C.C. departments of the college are working tirelessly to create interest and devotion for national service among the students. Many camps and programs are organized throughout the year by the departments. These two departments can certainly be called the factory of forming efficient and strong youth and alliances for the service of the country. On behalf of the N.S.S. department, conscious efforts are made to create social and political awareness among the students, increase labour interest, develop leadership qualities among the students, and make the students an informed and conscious citizen. Every year our N.S.S. department adopts a village and organizes a ten-day residential camp in the village near to our college. During the camp, labor is taken from the students and through this, efforts are made to convince the people of the villages about the importance of cleanliness. For the last five to six years, the college has been conducting blood donation camps in to provide blood to the needy people.

Apart from this, competitions based on Essay, Elocution, Storytelling, Singing, Instrumental Coordination are held regularly every year through Marathi, Hindi and English departments to develop the love of literature and language among the students. It is because of the efforts of these departments that many excellent speakers have come out of our colleges. The reputation of the college has spread throughout Maharashtra by securing first rank in the state level deviance competition by many students. Looking at the annual admissions in colleges, the proportion of boys and girls is found to be approximately 50-50%. Hence, we promote gender equity by proving that boys and girls are given equal opportunities in our college. New activities are being implemented for the students on behalf of Mahila Manch in the college. These programs help the students to come forward spontaneously in activities other than education. Such activities are certainly useful in shaping the personality of our girl students.

As our college is located in the Maharashtra-Karnataka border area, the students study here are multilingual who speak languages like Marathi, Urdu and Kannada. Along with language diversity, cultural diversity is also found among them. As per the slogan 'Unity through diversity', our college is continuing the work of imparting knowledge by accommodating all these diverse students.

Our college is in a pollution free environment and the surroundings of the college are green and with less traffic. Students spend one-third of their total time in college. As the college is pollution free, all the students study here are safe and there is no potential danger.

A separate N.C.C. department is functioning in the college and 52 cadets participate in N.C.C. every year. Both male and female students are given equal opportunity in this department too. Programs like Cleanliness Campaign, Blood Donation Camp, Voter's Rally, and Constitution Day etc. are conducted by the N.C.C. department every year.

Thus, our college is well known in the surrounding precinct due to all the above work. Along with it, the tradition of excellent results and consistent brilliant performance in sports has made the college stand out and create an independent identity in surrounding villages.
